## **Instructions**

Listen with headphones and eyes closed. Visualize any situation where you are following your instincts and finding money directly, or any opportunity that can lead to money. See yourself walking through a normal situation and visualize lines of money energy pulling you in all directions.

## **Tips for Success**

Keep a daily journal and record any objective evidence that you are becoming more attuned to any situation where you might find income or money. Write down any business or income ideas you think of while interacting with the world around you. Notice other people using unique ways to make money and write down ideas how you might do the same.
